### **Gift Prints**

- Printed on professional archival, silver halide paper. The paper provides a professional look and is more substantial and archival than consumer grade papers used by retail photofinishers.
- Display in frames with glass or in scrapbooks.

### **Mounted Fine Art Portraits**

- Printed on professional archival, silver halide paper.
- Finished with a protective spray that helps protect the surface of the print from fingerprints and dust. It also contains UV protection.
- Print mounted on 1/8" styrene board.
- Display in frames without glass which eliminates glare.

### **Canvas Fine Art Portraits**

- Printed on fine art canvas using archival inks.
- Finished with a protective coating that helps protect the surface of the print from fingerprints and dust. It also contains UV protection.
- Canvas mounted on 1/8" hard board.
- Display in frames without glass which eliminates glare.

### **Canvas Gallery Wrap Fine Art Portraits**

- Printed on fine art canvas using archival inks.
- Finished with a protective coating that helps protect the surface of the print from fingerprints and dust. It also contains UV protection.
- Canvas stretched onto 1.5" artists' stretcher bars with the image wrapped around the edge and back fitted with a protective paper dust cover and a hanging wire.
- Display directly on wall without frame.
